

PORTABLE CANCOOL

Stand Out from the crowd – the latest branding medium has just hit the streets. This unique way of promoting your brand will attract a crowd and keep your customers cool. Your brand will be remembered and the 'CanCool' misting system will draw people to your product!

'CanCool' can be branded to suit any product with a laser printed advertising skirt that is easily changed to suit the campaign.

Manufactured in Australia by 'OzMist', this eye-catching product can be used inside or out and produces a significant temperature drop on the hottest of days.

Australian pioneers, OzMist have been cooling events such as the Melbourne GP, Clipsal 500, the AFL Pre-season competition, concerts, entertainment and corporate events.

OzMist system are portable, easily set up and have a powerful fan that will throw cold air up to 12 meters! Producing a fine mist under high pressure, the water vapor evaporates before touching any surface, to cool and rejuvenate.

Make your marketing campaign stand out from the crowd with 'CanCool' by OzMist.

The CanCool unit, manufactured by Ozmist at it's Wangaratta facility has become extremely popular with event organisers and patrons alike. Some of the very prestigious events that they have been used are;

- Clipsal 500 Car Race in Adelaide
- Melbourne F1 Grand Prix
- Indy 500 car race Gold Coast QLD
- Theme Parks on the Gold Coast
- V8 Car Races in Darwin
- AFL match's in QLD and NT
- AFL Club at training and match games
